

GDPR COMPLIANCE INFO

- Our company is fully compliant with the requirements set by the General Data Protection Regulation (GDPR), act no. 18/2018 on personal data protection and amending and supplementing certain acts, relevant edicts of the Office for Personal Data Protection of the Slovak Republic, the internationally recognized technical norms and the recommendations of the European Data Protection Board
- In order to follow the GDPR rules, our company has established internal directives which regulate handling of confidential data in such a manner that minimizes the risk of unauthorized access to personal data or hacker attacks
- Our employees are regularly trained in order to maintain a high standard when it comes to provision of our services even with respect to the specific requirements of our clients regarding the confidentiality of personal data
- Each employee that comes into contact with confidential information of the company takes part in a training focused on adhering to the internal directives of the company
- Our suppliers are technologically sophisticated companies, committed to following the GDPR rules in the same scope as our company towards its clients
- In our company, there is a person responsible for the supervision of legitimacy of processing personal data, which ensures that the general binding legal regulations are adhered to, as well as the internal rules of the company
- We offer our clients the fair responsibility policy of our company with the offered services.
